Our Home and Community Based Services are for individuals who need support services in their own home, apartment and community needing supportive services. Services vary based on need and supports in a variety of activities such as instrumental activities of daily living (IADLs), support and companionship, emotional support and socialization, skill nursing, personal care and other health-related services. Service enables the participant to retain independence or improve skills related to personal needs, health, use of community resources, community safety, physical assistance, supervision and other adaptive skills needed to live in the community.

Our staff is multicultural professionals that speak and understand the cultural needs of clients. Our staff is CULTURALLY & LINGUISTICALLY competent and fluent in Portuguese, Cape Verdean Creole, Spanish, Haitian, French, Creole, Chinese, Mandarin, Cantonese and Vietnamese.

We have experience working with:

- Acquired Brain Injury
- Elderly
- Physical Disabilities
- Intellectual Disabilities
- Psychiatric Disabilities

Home and Community Based Services

*Holistic and Multicultural
Home and Community Based
Services for adult and their
families in their Community*

Enhancing Lives

MIND ~ BODY ~ SPIRIT

Home and Community Based Services (HCBS)

Our goal is to provide a comprehensive array of therapeutic home based supports for individuals and their families living in the family home, adult foster care, or independently and do not require 24 hour care. Their health and welfare needs can be met either in the family home or in the community. Services may differ depending on the living arrangement of the individual. An individual will only receive services that are needed in order to remain safely in their communities. Intake must be completed with a healthcare professional in four session, in the living environment where services will be rendered.

Services offered under the Lamour Adult Day Care are:

- Adult Companion
- Adult Foster Care
- Behavioral Supports
- Center Based Day Supports
- Chore
- Community Based Day Supports
- Community Residential Family Training
- Day Habilitation
- Family Training
- Group Foster Care
- Individualized Day Supports/ Home Health Aid
- Occupational Therapy
- Personal Care
- Peer Supports
- Physical Therapy
- Speech Therapy

We provide behavioral health services that lower risk factors, increase skills, gain insight into emotional needs and engage family by training and skill building within the home environment. Our services include collaborating with all services providers and healthcare providers.

Specialty Behavioral Health Programming:

- Dialectic Behavioral Therapy (DBT)
- In-Home Applied Behavior Analysis (ABA)
- In-Home Therapy (IHT)
- Traditional Outpatient (OP)
